*Dear Mrs. Buchanan,*

**Feedback from CPR Training Session**

I am writing to thank Great Denham Parish Council once again for kindly contributing to East Anglian Air Ambulance's CPR training sessions for school children. The training Great Denham Parish Council donated towards has now taken place at Great Denham Primary School and we are pleased to be able to report back to the Council.

The workshop was very successful with the children and the school. Teachers were impressed by the content of the course and the way in which it was tailored to the age group. Moreover, the teachers at Great Denham said it was invaluable to have a working paramedic teach the children this lifesaving skill as he was able to give them examples from personal experience and answer their questions in great detail. The school have said they would be very happy to repeat the training in the future, judging it to be a valuable learning experience and something that has left a lasting impression on the children.

Should you have any questions, please do not hesitate to contact me. Thanks to this grant, children in Great Denham have gained the lifesaving skill of CPR which may have a long-term benefit to the community. We would have been unable to offer this session without your support, for which we are very grateful.

Together, we save lives.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Mary Lockhart".
